

Transactions of the Japan Society of Refrigerating and Air Conditioning Engineers

Transactions of the Japan Society of Refrigerating and Air Conditioning Engineers is a quarterly publication, aiming extensive business development of science and technology of interest such as cryogenic, refrigeration, air-conditioning, heat pump, foods, and medical to be effective on mutual exchange and enlightenment of information regarding outcome of research and development among not only members but also researchers and engineers in related fields. The Japan Society of Refrigerating and Air Conditioning Engineers annually awards authors of outstanding papers published in the Trans. JSRAE.

TYPES OF CONTRIBUTION

Original Research Papers: Significant and complete research works having the followings.

- Originality; to be rich in novelty or originality in subject, content or method of research.
- Usefulness; to be worthwhile academically or technically (based on authors declaration)
- Expansibility; to be promising in future for academic system or engineering applications
- Reliability; to be free from apparent (serious) errors in contents
- Completion; to be high in percentage of completion

Original research papers would be classified for “Regular papers” and “Open Accessed papers” by their difference in reviewing and publication processes.

Regular papers: Twelve printed pages maximum.

The JSRAE membership of the author is not asked. After reviewed regularly (reviewed several times by reviewers), finally accepted paper is published in JSRAE transaction which is issued for 4 times every year.

Open Accessed papers: Six printed pages maximum.

The JSRAE membership of the author is not asked. After rapid review (reviewed only once in principal), accepted paper would be released to public (open accessed) on the WEB, J-Stage, as soon as possible. It is also recorded in JSRAE transaction which is issued for 4 times each year.
